The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 6a, 6b. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The drawings are objected to because in Figure 4, "62b" should be changed to --62a--, to properly indicate the guide recess. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 lacks a proper antecedent basis for "the plurality of second guide recess", and for "the plurality of first guide recesses". A plurality of first guide recesses are first claimed in claim 3, yet claim 4 depends from claim 1. Claim 4 should be amended to read --the second housing having a plurality of second guide recesses--, with the dependency of claim 4 being changed to claim 3, to provide a proper antecedent for the first guide recesses.

Claim 5 lacks a proper antecedent for "the plurality of second guide recesses". The dependency of claim 5 should be amended to depend from claim 4.

Claims 1-3 are allowed.

Art Unit: 3682

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
